###

Convoy Skateboards was established in the summer of 2005. It is a skateboard company dedicated to portraying the best possible image for skateboarding. The company is about giving back to an industry that gave so much to the founders as they grew up. It is not about having the best "skate team" and not about blowing other companies out of the water, but its main mission is to promote fundamental skateboarding and create the best products with the following qualities; fresh and new designs, a positive attitude, and overall quality and performance, but most of all, promote having fun while doing the thing you love; skateboarding!
